

Montreal Chic: A Locational History of Montreal Fashion (Urban Chic)

Montreal is a la mode. A fashionable city in its own right, it also boasts fashion schools, an industry packed with local designers and manufacturers, and a dynamic scene that exhibits local and international collections. With its vibrant cultural life and affordable cost of living, designers and artists flock from all over to be a part of Montreal's hip fashion community. Montreal Chic is the first book to document this scene and how it connects with the city's design, film, music, and cultural history. Scholars Katrina Sark and Sara Daniele Belanger-Michaud are intimately acquainted with Montreal and use their firsthand knowledge of the city's fashion to explore urban culture, music, institutions, scenes, and subcultures, along the way uncovering many untold stories of Montreal's fashion scene.
