

# Titans and Olympians Greek & Roman Myth

The ancient Greeks and Romans created the most enduring cultures known to humanity and a pantheon of gods who live on in some of the greatest myths ever told: of Athena, goddess of battle, of Dionysus, god of wine and fertility, and of Narcissus, who fell in love with his own reflection.

In Greek mythology, the Titans were a primeval race of powerful deities, younger gods, the Olympians, in a ten-year war called the Titanomachy (War of the Titans) Oceanus or Okeanos refers to the ocean, which the Greeks and Romans adopted most of these Greek gods and goddesses, but with new names. Apollo was the son of Zeus and the Titan Leto, and the twin of Artemis. The essential Olympians names are given in bold font. Gaia The Earth. Uranus The Sky. A very nice lightly toned. 1997 Large Hardcover. 144 pp. Part of the Myth & Mankind series. A dramatic series that captures, culture by culture, the Olympians..
