Tablet and e-reader formatted Original & Unabridged Edition Best fiction books of all time One of the best books to read Classic Bestselling Novel Short Biography is also included Classic historical fiction books Bestselling Fiction Middlemarch, A Study of Provincial Life is a novel by English author George Eliot, first published in eight instalments (volumes) during 18712. The novel is set in the fictitious Midlands town of Middlemarch during 182932, and it comprises several distinct (though intersecting) stories and a large cast of characters. Significant themes include the status of women, the nature of marriage, idealism, self-interest, religion, hypocrisy, political reform, and education. Although containing comical elements, Middlemarch is a work of realism that refers to many historical events: the 1832 Reform Act, the beginnings of the railways, the death of King George IV, and the succession of his brother, the Duke of Clarence (the future King William IV). In addition, the work incorporates contemporary medical science and examines the deeply reactionary mindset found within a settled community facing the prospect of unwelcome change. Eliot began writing the two pieces that would eventually form Middlemarch during the years 186970 and completed the novel in 1871. Although the first reviews were mixed, it is now widely regarded as her best work and one of the greatest novels written in English.
