The novel is set in the fictitious Midlands town of Middlemarch during 1829–32, and it comprises several distinct (though intersecting) stories and a large cast of characters. Significant themes include the status of women, the nature of marriage, idealism, self-interest, religion, hypocrisy, political reform, and education. Although containing comical elements, Middlemarch is a work of realism that refers to many historical events: the 1832 Reform Act, the beginnings of the railways, the death of King George IV, and the succession of his brother, the Duke of Clarence (the future King William IV). In addition, the work incorporates contemporary medical science and examines the deeply reactionary mindset found within a settled community facing the prospect of unwelcome change. Eliot began writing the two pieces that would eventually form Middlemarch during the years 1869–70 and completed the novel in 1871. Although the first reviews were mixed, it is now widely regarded as her best work and one of the greatest novels written in English.

Death To The Landlords (The Felse Investigations), The Writings of Mark Twain [Pseud.], Volume 24, Los justos / The Righteous: Obra en cinco actos / Work in Five Acts (Spanish Edition), Una temporada en el infierno (Spanish Edition), The works of Tobias Smollett Volume 1, Montreal from A to Z: An Alphabetical Guide (Alphabet City Guides Book 1), A Midsummer Nights Dream, Fodors Florida 2006 (Fodors Gold Guides), Sacramento California (1916 Souvenir Postcard Folder), William Shakespeare: Comedies (Blooms Modern Critical Views),
